

Program Guideline

1. Outline

Program	Human Resource Development Program for Locally Producible and Usable Sustainable Energy and Energy Storage (LocSEES program) (Master's Program, 2 years, or Doctoral Program, 3 years)
Degree	Master or Doctor
Graduate School and Division	Graduate School of Frontier Science Initiative (Master's / Doctoral Program) Division of Transdisciplinary Sciences Division of Nano Life Science
	Graduate School of Natural Science and Technology (Master's Program) Division of Mathematical and Physical Sciences Division of Material Chemistry Division of Mechanical Science and Engineering Division of Frontier Engineering Division of Electrical, Information and Communication Engineering Division of Geosciences and Civil Engineering Division of Biological Science and Technology Graduate School of Natural Science and Technology (Doctoral Program) Division of Mathematical and Physical Sciences Division of Material Chemistry Division of Mechanical Science and Engineering Division of Electrical Engineering and Computer Science Division of Environmental Design Division of Natural System

2. Contents of the Program

I. Aim of LocSEES Program

The two graduate schools of Kanazawa University have set up new programs, Human Resource Development Program for Locally Producible and Usable Sustainable Energy and Energy Storage (LocSEES program), from 2020. Through the program we will develop human resources for research and development of materials and devices for solar cells, biomass power generation and storage using innovative organic materials. The aim is to realize a low-carbon society, by local

production / consumption and low-cost energy supply. The students study mainly Chemistry, Energy-related chemistry, Energy-related material sciences, and Nano-sciences.

II. Curriculum of LocSEES Program

- 1) Quota
Master's program: 6 persons
(The breakdown for the total is 2 MEXT Scholarship students, 2 privately financed foreign students, and 2 Japanese students.)
Doctoral program: 8 persons
(The breakdown for the total is 3 MEXT Scholarship students, 3 privately financed foreign students, and 2 Japanese students.)
- 2) Screening A: The MEXT scholarship applicants are all screened, and the passed students are accepted as students of the LocSEES Program.
Screening B: Privately financed foreign students and Japanese students can apply for the LocSEES Program after the entering the graduate school of Kanazawa University as regular students. The applicants are screened, and the passed students are included in the LocSEES Program.
- 3) Official Language: Mainly in English
All the lectures in the LocSEES Program are given in English. Student research projects are directed and advised by professors in English.
- 4) Requirements for Completing LocSEES Program: As shown in the attached sheet.
- 5) Certificate of LocSEES Program:
The LocSEES Program students who satisfy the requirements receive a certificate of Program as well as the diploma.

3. Note

- 1) Obtain the consent of your supervisor before applying for the program.
- 2) For inquiries about the program, please contact the following.
